

PRODUCT NOTICE

Fixed Gas Detection Products
Migration to Online Manuals

Regions Affected: **GLOBAL**

Dear Customers and Colleagues

Following a review of our digital media and the mode of access of information by our customers, we have taken the decision to move all technical manuals for our fixed gas detector products online. The CD-ROMs that are currently being provided with each product will be phased out.

However, we will continue to provide a printed product quick start guide, which contains all essential information related to safety and installation.

Technical Manuals for all of our products can be easily downloaded on the Honeywell Gas Detection website at www.honeywellanalytics.com.

Yours sincerely,

Duncan Gooch
Global Product Manager | Fixed Gas Detection
